Dear Mr. Weisberg,

Just a few lines to let you know what a great job you are doing in delving into the assassination of President Kennedy. I am with you 100 per cent and admire you greatly.

I think the Government is in a bad state of "ill health" when it dares to take upon itself the falsification of evidence in the murder of a great President

To give the people such a report is almost like saying

we are a society of jackasses and will accept anything. The Government is "running scared" and it is just a matter of time before the whole truth comes to the surface.

The whole situation makes me quite angry. I try to help by writing letters, but wish there was someway I could be of more help.

If you know of anyway I might be able to help, please let me

know. I have given copies of your book to a number of my friends, hoping to arouse their interest.

Mr. Weisberg, would you be able to give me the name of the author who wrote about all the deaths connected with the case - also the title and publisher. I saw him on the special with you, Mr. Lane, Mr. Cohen, but for the life of me cannot remember his name.

Am looking forward to reading your latest book.

It seems to me that our Government has lost all sight of what the Revolutionists fought for, and I thank the Lord for people as yourself and Mr. Garrison who are concerned enough with this deplorable situation to call this to the attention of the people. It seems so many people say, I don't

like it, but what
can I do about it.
Such statements irk
me no end, as
these are the people
who complain the
most when the
Government becomes
more dictatorial.
God bless you,
and may the
truth be delivered
to the people soon.
Sincerely yours,

P.S. Please excuse the scratching
out as I think faster
than I write.
